

How to use your South Carolina Healthy Connections benefits for well-child visits

- Call your doctor or clinic to schedule medical checkups.
- Call your dentist to schedule dental checkups.
- Bring your child's Medicaid card and health plan ID card (if you received one) to every appointment.
- If you need a ride to your child's checkup, South Carolina Health and Human Services can help. Visit www.scdhhs.gov/openpublic/TransportationFAQ.asp to find the number of the Medicaid transportation company in your county.

Keep your kids healthy and strong with regular checkups

It's very important for your child to get regular checkups. Regular checkups help you make sure your child is growing and developing normally—even when they aren't sick. These are called well-child visits. Children should get them from birth until they're grown up (age 21).

With South Carolina Healthy Connections, your child's medical and dental checkups are **FREE** through age 18*. If the doctor finds a problem during a checkup, you can get treatment for your child using your South Carolina Healthy Connections benefits.

Medical checkups

Keep your child healthy. Take them to the doctor for a complete physical at the ages shown below:

- n 3 to 5 days
- n 1 month
- n 2 months
- n 4 months
- n 6 months
- n 9 months
- n 12 months
- n 15 months
- n 18 months
- n 24 months
- n 30 months
- n 4 years to 21 years, once per year

Immunizations (Shots)

Shots protect your child against many serious diseases. Take your child to the doctor to be immunized at the following ages:

- n Birth to 2 months
- n 4 months
- n 6 months
- n 12 to 24 months
- n 4 to 6 years
- n 12 to 14 years
- n 15 years
- n 16 to 18 years

Dental checkups

South Carolina Healthy Connections gives your child **FREE** dental services through age 18*. Take your child to the dentist as soon as they get their first tooth, or by their 1st birthday, whichever comes first.

Your well-child visits include:

- n Eye and hearing tests
- n Blood pressure check
- n Dental checkup
- n Any needed shots
- n Any needed lab tests
- n A check for proper growth and development
- n Advice about growth progress

* For children ages 19 to 21, there is a small co-pay.
